

June, 2018

Dear Parents,

Welcome to second grade! As you make plans to enjoy your summer we urge you to read daily to your child and listen while he or she reads to you. Practice telling time to the hour and half hour, play "store" and make change with your child. They should be able to remember all the number facts they learned in first grade and be able to copy from the board. Be sure they can tie their shoelaces and write their first AND last names. These activities will help build the skills they will need in second grade and in all the years following. We look forward to working together to help your child meet the Common Core Standards.

Supply List- Please send in the following items on 9/5/18
